

THOUSANDS OF FARMERS GATHER AT LAND SHOW

[UNITED PRESS LEARNED WIRE.] Chicago, Ill., Nov. 20.—Thousands of farmers from all parts of the middle west flocked into Chicago today for the opening of the United States Land show at the Coliseum. The exhibition is one of the most picturesque that is staged here annually and will continue until December 8.

The feature of the show this year that excited the most comment was the marked invasion of the west by the east. New York, West Virginia, Maryland and Ohio were represented with displays of the "fruits of the soil," rivaling those of any of the western or southern states. The Maryland exhibit was made by Frederick County, while the three states were represented through their state boards of agriculture. It was West Virginia's first experience at the land show. Canada was also represented by elaborate displays made by the Dominion government, the provincial governments of British Columbia and Alberta and the Chamber of Commerce of Edmonton. Mechanical models of irrigation systems and railway engineering feats in the Rockies were the features of Canada's exhibits.

The west was represented by the Great Northern railway with the largest individual display in the Coliseum, the state of Oregon, Tulare county, California, and the seven southern counties of California, in a joint exhibit. Besides the agricultural displays, a Glacier National Park travel show, including a band of Blackfoot chiefs, took a prominent part in the western exhibit. The state department of immigration of Alabama and Mississippi and the boards of trade and commerce of Jackson, Mississippi, and Houston, Texas, were the only southern community exhibits. The United States was officially represented by the display of the Department of Agriculture, congress having made an appropriation of \$20,000 for the display, which will be taken from Chicago to Tulsa, Oklahoma, after the exhibit here closes.

The color scheme of the exhibition was brown and green. In this setting, fanciful displays of fruits, cereals and vegetables were arranged to make the Coliseum a miniature "market place" for all the agricultural and horticultural products of North America. A band of twenty-five Ojibway Indians, presenting a dramatization of Longfellow's poem, "Hiawatha" constituted the chief entertainment feature of the show. The purpose of the land show is to encourage the science of agriculture, and furnish the various sections

of the United States and Canada with an opportunity of showing prospective settlers the advantages of the soil.

TO ADVERTISE THEMSELVES

[UNITED PRESS LEARNED WIRE.] Marysville, Cal., Nov. 20.—Representatives of California's thirty-one northern counties met here today to form an association to advertise themselves. The prospective advertisers believe they can raise \$100,000 to wage their campaign, which will be carried on in the eastern states and in Europe for at least five years. Its main object will be to secure good settlers. Californians are convinced that with the opening of the Panama canal there will be a tremendous rush toward the Pacific slope.

ODD QUESTION

[UNITED PRESS LEARNED WIRE.] Jefferson City, Mo., Nov. 20.—Decision of the question of whether a utility company that buys electric power or from a water electric generating plant can also maintain a steam plant of its own for emergency purposes and figure the same in as part of its operating expenses in fixing rates, is expected here in a few days by the State Public Service commission which has been investigating complaints of excessive lighting charges made by the Springfield citizens. Electric and utility companies from all the important water power centers of the country had experts present at the Springfield hearing.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PULLMAN CAR COMPANY IS NOW UNDER FIRE

[UNITED PRESS LEARNED WIRE.] San Francisco, Nov. 20.—Fresh from its victorious skirmishes with the Wells Fargo Express company and the telephone monopoly, the state railroad commission has begun an investigation into alleged abuses connected with the Pullman Car system in California. The company's alleged practice of permitting travelers to make reservations, only to find that their berths had been sold to others, and the general service of the company, are under investigation.

The hearing developed that the Pullman porters earn about \$27 a month. A brigade of high priced attorneys from New York, Chicago and other eastern cities is conducting the company's fight.

AILING WOMEN OF MIDDLE AGE

Mrs. Hilbert Tells of Her Distressing Symptoms During Change of Life and How She Found Relief.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do."

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong well woman. I am very thankful that I followed my friend's advice and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly headed by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis.

DRAMATIC NEWS

"THE HIGH ROAD"

Salem is to be included in the country wide tour upon which Mrs. Fiske has entered prior to her annual New York engagement in March, next. She is to come to us on Saturday, November 29, bringing, of course, the Edward Sheldon play, "The High Road," in which she has made of "Mary Page," a companion figure to her "Tess," and her "Becky Sharp." The play attracted wide and an unusual order of attention in New York when presented so successfully at the Hudson theatre last year which, considering the perfect maelstrom of attractions that the season brought forth, would seem to be about as strong a brief in its favor as could be held. The seat sale for Mrs. Fiske opens at the Grand Opera House on Friday, November 28. Mail orders accompanied by check or money order will be received beginning Monday, November 24.

ADMITS THEFT OF FUNDS

[UNITED PRESS LEARNED WIRE.] San Bernardino, Cal., Nov. 20.—Dr. P. G. Wishard, former secretary of the state insane asylum at Ratton, pleaded guilty yesterday to a charge of embezzling money from the patients' fund of the institution. He was given a suspended sentence of three years, with the understanding that he is to return to the fund the \$1,000 he abstracted within 30 days.
